Supply of Food Grains to the labour working at Krishnarajasagara.

READ—

Notes No. D 46, dated 4th February 1920, and 5th March 1920, by the Joint Secretary to Government, Public Works Department.

ORDER NO. 305-10—1735-40, DATED 16TH MARCH 1920.

The question of procuring sufficient supplies of food grains to the labour working at Krishnarajasagara has been one of considerable difficulty. The arrangements made till now to get over the difficulty have not proved completely satisfactory for one reason or other.

2. Lately, it is reported that the last stock of Rangoon rice is exhausted and merchants are charging exorbitant rates. On this account, the labour is put to considerable trouble, and the situation threatens to grow worse, unless efficient steps are taken to provide proper food supplies.

3. Consequently it is proposed to open two reserve grain depots, one on each bank of the Krishnarajasagara Reservoir, the Executive Engineer being asked to supervise the Depots and the Superintending Engineer controlling the operations. The monthly cost of establishment to keep the accounts and distribute grain is estimated at Rs. 47 per mensem for each Depot or Rs. 94 for both.

4. Under these circumstances, Government are pleased to convey sanction to the formation of two Depots as proposed one on each bank with the establishment proposed by the Chief Engineer, Cauvery Valley Irrigation.

5. The Food Controller is requested to supply, on indents, from the Executive Engineers as much of the grains required for the Depots as he could spare from the Provincial Depot.

6. The proposal to sell grains at cost price plus a small profit of 2 per cent to cover the working expenses and to make the operations self-supporting is also approved. Money realised by the sale will be remitted to the Food Controller.

7. The Superintending Engineer should see that proper accounts are kept of the transactions from the commencement to avoid complications in future.
